Position: Advanced Practice Registered Nurse – Psychiatric (Bozeman and Livingston locations)

Close Date: Open Until Filled

Hours: 40 hours/week (Monday through Friday)

Job Summary: The APRN is responsible for the provision of psychiatric treatment of SED or SDMI clients receiving outpatient services. The APRN functions as an active member of a team of professionals in the delivery of community based mental health treatment and rehabilitative services providing psychiatric/medical consultation for: Outpatient Therapy, Day Treatment, Community Based Rehabilitation, Case Management, Crisis House services and Family Based Therapy services. The APRN provides training for staff and consultations for families and clients as appropriate and positively represents the Mental Health Center to the medical community.

Essential Job Responsibilities: Full job description available by request.

Qualifications: Ability to effectively provide leadership, training, and consultation to a diverse group of professionals; ability to relate effectively with administration, consumers, and family members and alliances, perform assessments, diagnoses, and develop practical treatment approaches for and with consumers who are experiencing symptoms of serious emotional disturbance or severe and persistent mental illness. This is a 40 hour position Monday through Friday with On-call expectations for Bozeman and for Butte and Helena via Telemedicine.

Education & Experience: This position requires a master's degree in Nursing from an accredited institution and a license to practice in the State of Montana. Must have extensive training or experience in community based psychiatric treatment of individuals diagnosed with serious emotional disturbance or severe and persistent mental illness, a comprehensive and current knowledge of psychotropic medications, and an understanding of crisis intervention and the use of hospital alternative services.
